LOST THEIR LIVES.

Two Men Perish in a Burning Building.

Five Other Inmates of the House Receive Injuries by Jumping, but Only One Seriously Hurt.

NEW YORK, March 20.—Two men lost their lives in a fire which broke out at 2.45 o'clock this morning in the four story flat house at 168 West Twenty-fifth street. John Kurtz proprietor of the Chimney Corner saloon, Sixth avenue and Twenty-sixth street, was burned to death while trying to save the members of his family. Tony Ketchum, an insurance agent, jumped from the third story window and was so badly injured that he died an hour later. Five others who jumped, escaped without serious injuries. Kurtz was not at home when the fire broke out, but arriving shortly after it was discovered, he proceeded to arouse his family and the other tenants of the building. The last that was seen of Kurtz alive was when he was running up the stairway through the flames. Kurtz's family, who lived on the second floor, all escaped, the two youngest children being dropped from the window while Mrs. Kurtz and her eldest son reached safety by way of the roof.

Rebecca Shamp was severely burned about the neck and shoulders, by attempting to descend by a ladder from the third story, she fell but was caught in a net and escaped without serious injury.

When the fire had been extinguished the dead body of John Kurtz was found in the hallway. The loss by fire and water is about $40,000.

PEORIA, Ill., March 20.—Fire broke out early this morning under the roof of the Dewein building, one of the oldest and largest business structures of the city. The third story containing lodge rooms of the uniform rank, Knights of Pythias, and other orders were burned out. Offices in the second story, and the clothing store of H. & N. Krissman, boot and shoe stock of J. P. Schencilbacher & Sons, in the first story were damaged by water. A portion of the rear wall fell down during the fire. Loss, $100,000; mostly insured.

PLEA IS INSANITY.

Isaac Bridges Placed on Trial at Terre Haute for Murder.

TERRE HAUTE, Ind., March 20.—The most sensational murder case in this county in many years is on trial here and Isaac Bridges, who has just arrived at manhood's age, was placed on trial for the murder of Mrs. Joseph Montgomery in the early part of last November. He shot her as she was returning home from the theater. Before her death she refused to make an antemortem statement, saying that if she died she did not want to leave any testimony to be used in a murder trial A plea of insanity will be the defense, and to substantiate that plea there will be sensational testimony to the effect that young Bridges was driven insane by the wiles of a designing woman. Bridges inherited about $1,000 a year ago, and, according to the claim of the defense, Mrs. Montgomery secured all of this money and also much of what he received as an employe of the wheel works.

A METALLIC EAGLE

Will Adorn the Hats of Uncle Sam's Army Officers.

WASHINGTON, March 20.—The probabilities are that in the near future the officers of the United States army will take on another designation of rank in the shape of a metallic eagle, to be worn on the front of their hats. The question is under advisement among the head officials of the war department and it is understood that the project is very favorably regarded by many of them. Some of the army officers are urging it on the ground that in European countries the officers wear on their hats the colors of the sovereigns They hold that it is a place and unmistakeable evidence of nationality as well as of rank and military service and that as the eagle is the national American emblem, it can be adopted to the benefit of the service.

PREPARING FOR COURT ACTION.

Charles Harley to Demand Possession as Warden of an Indiana Prison.

INDIANAPOLIS, March 20.—The directors of the northern prison chosen by the state officers met here yesterday and selected Charles Harley, of Delphi, as warden of that institution. He will go to Michigan City tomorrow and demand possession of Warden French, and, when the latter refuses to deliver the keys, he will file suit for possession at once. The case will be pushed as rapidly as possible and will go to the supreme court. It is hoped to get a decision within thirty days that will settle the matter of the legislature's right to appoint boards of state officers to make other appointments.

WITH A MACHETE.

Eugene Usenay Attacked and Nearly Killed by a Slave.

SAN DIEGO, Cal., March 20.—Advices have been received of the narrow escape from death of Eugene Usenay, a former resident of this city, who is now in Nicaragua. Assaulted by a peon employed on the plantation where he is at present located, he barely escaped with his life, being repeatedly slashed with a machete. The matter being called to the attention of the authorities, a farcial examination was held and the offender discharged. Usenay was offered English protection, but relied upon American support, which was not forthcoming. The matter has been brought to the attention of Senator White, an old schoolmate of Usenay's, who will lay the case before the Washington authorities.

AFFAIRS OF THE ORIENT.

Japanese Cruisers Searching for Contraband Vessels.

The Emperor Preparing to Leave Hiroshima—Prince Komatsu Will Locate at Port Arthur.

TIEN TSIN, March 20.—Four Japanese cruisers arrived off the Taku bar yesterday. They were in search of vessels carrying contraband of war

YOKOHAMA, March 20.—The emperor will shortly leave Hiroshima for Kioto on the island of Hondo. He will not return to Hiroshima. The gun boat Tatsuta, which was detained at Aden while on her way here by order of the British government, has arrived at this port. The Japanese gunboat Tatsuta, according to a dispatch from Aden on August 28 last, was detained there by order of the British foreign office under the foreign enlistment act, because her captain and crew were British subjects. Moreover, the crew, in view of the neutrility laws, refused to do duty. The Tatsuta left Shields, England, on July 31 for Yokohama. She was built by the Armstrongs at Elswick and was launched on April 6 last. She is of 875 tons register and has a speed of twenty-one knots.

Prince Komatsu, the commander-in-chief of the Japanese armies, is going to establish his headquarters at Port Arthur.

PENSIONS.

There Will be No Change in Appropriations for Three Years.

After That Period Commissioner Lochren Anticipates a Rapid Falling Off in Amount Required.

WASHINGTON, March 20.—Commissioner of Pensions Lochren estimates that there will not be any decreased amount appropriated for pensions during the next three years. The amount appropriated for the fiscal year of 1895 in round numbers is $140,000 000. For the present year the amount was $150,000,000 The reason for the absence of any perceptible decrease in the falling off owing to deaths and other causes, is about counterbalanced by first payments in pensions allowed. As cases are allowed from time to time there are large first payments, sometimes for arrears and always dated from the time the application was filed. The decreases in some classes of claims are quite great, as in the pensions for the war of 1812, which have decreased about 50 per cent. in the past year After three years, when it is expected that the majority of claims will be sjudicated and there will be a few remaining first payments, Commissioner Lochren expects there will then be a rapid falling off in pensions, as they have now reached the age when it is to be expected. He then expects the pension appropriation will be diminished in size very materially.

BOY STOLEN BY TRAMPS.

Escapes From Them in Mexico and Works His Way Home.

COLUMBUS, Ind., March 20.—Two years ago Kennedy Stewart, aged fourteen, was stolen from this city by two tramps, who made him beg for them. During the first year he was heard from in Iowa, South Dakota, then Texas, then all trace was lost. Last night he returned home, having escaped from his captors in Mexico and worked his way back.

LUCKY JOHN BOHEN.

A Poor Printer Will Marry a Millionaire's Daughter.

The Beautiful and Wealthy Theresa Gertrude Butler Falls in Love With a Type Juggler.

BOSTON, March 20.—John Bohen, a printer of this city, is soon to marry Miss Theresa Gertrude Butler, only daughter of Capt Howard G. Butler, the Philadelphia millionaire The engagement has been kept a secret, it is said, at the desire of the young woman's parents, who do not favor the match After an extended tour in Europe in pursuit of her studies, during which she received the attentions of many titled butterflies, Miss Butler returned home. She is a beautiful girl, the idol of her mother's heart and the pride of her rich father, with three-quarters of a million in her own right. Last August Miss Butler, with her parents, went to Newport, where they were guests of Mrs Bigelow. At about the same time Mr Bohen, with a party from Boston, went to Newport to attend a dance given in the Newport bazaar. There he first met Miss Butler. They met often and the story goes that the girl's parents ordered Bohen to cease his attentions. The order was not obeyed and secret meetings followed.

In this way a month was passed and then Mr. Bohen returned to Boston and they began to communicate by letter, becoming engaged about the middle of last January. Mr and Mrs. Butler protested, but their daughter insisted that she loved young Bohen and that his poverty should not be a bar to their union Then the parents gave their consent and on Washington's birthday the couple met in New York and made arrangements for their marriage. The wedding will take place in the home of the bride's parents on Chester avenue, in Philadelphia, but there will be no display. It is planned that their honeymoon will be spent in a New England town and then the couple will go to Europe for a year. Miss Butler is twenty-four years old. Mr. Bohen is a year her senior. The latter has been a compositor on several of the Boston daily newspapers. Captain Butler is said to be worth nearly $2 000 000 and is well known on Wall street.

WOMAN DETECTIVE.

Miss Leona Northrup Figures in That Role.

She Creates a Scene in a Milwaukee Court by Her Testimony in the Alms House Case.

MILWAUKEE, Wis., March 20.—A woman detective materialized in the municipal court yesterday in the person of Miss Leona Northrup, the stenographer, who is playing an important part in the alms house conspiracy trial. A scene approaching the dramatic took place when she testified that she could positivaly identify all the sheets she copied for insertion in the specifications, but when she said the method by which she recognized the pages was derived from one of Dr. Conan Doyle's stories, she created an interest that was nearly sensational. Miss Northrup related the incidents of a strange man coming into her office and asking her to make six copies of page twenty-eight of the specification. When District Attorney Brazes asked Miss Northrup if she could find any distinguishing marks about the pages she promptly replied that she could. The ink on the page was slightly darker than that used in making the other pages, and the one written by her showed signs of having been written at a later date. It had certain type which were slightly broken and blurred that were on her typewriter.

TWO MEN ARRESTED.

Hunt and Miller Held to Answer to Murder.

Charged With Complicity in the Killing of Poor Mrs. Holten, Near Brocksburg.

BUTTE, Mont., March 20.—County Attorney C. W. Lear is now at the scene of the lynching of Mrs. Holten, near Brocksburg. Word was received here today that they had arrested two men named Hunt and Miller as the perpetrators of the dreadful deed, and will bring them in at once. These men are desperate characters, and have been mixed up in a number of lawless affairs. Their latest known exploit was the holding up of Dr. Ellis on the road from Butte to Bonesteel, S. D., some two weeks ago. Attorney General Churchill will probably reach here tomorrow. He has been ordered here by the governor to investigate the case. Hunt and Miller, it is believed, are only two of a number of men who were interested in putting the poor woman out of the way, though probably not more than two were actually engaged in it.

GENERAL BADEU DEAD.

Was One of General Grant's Staff Officers.

RIDGEWOOD, N. J., March 20.—General Adam Badeu, who was on the staff of General Grant as military secretary, and who afterwards served as secretary of the American legation in London, is dead, aged sixty-four years

WILL CARRY GUNS.

The Alliance Rigged Out in Battle Attire.

NEW YORK, March 20.—The steamer Alliance, which was fired upon by a Spanish gun boat, will sail for Cuba to day A report that she is to carry rifles and munitions of war when she puts to sea was confirmed by the agents of the line. The fact of her so doing, they explain, was not at all remarkable nor in any way sensational. The company acts as carriers of arms to the Columbian government on nearly every trip of its vessels It is a perfectly legitimate trade and violates no law.

THURSTON SNUBBED.

The Administration at Washington Don't Like Him.

He Has Never Been Treated With Due Respect and Now His Withdrawal Has Been Requested.

WASHINGTON, March 20.—An intimate friend of Minister Thurston, now in Washington, says that Mr. Thurston has no official information as to the request for his recall, while at the same time no doubt exists on the part of the minister that such a suggestion has been made to the Hawaiian government. It is not likely, however, that Mr. Thurston will leave this country He will continue, it is stated, to look after Hawaiian interests in an unofficial manner. Mr. Thurston's friend says that as a matter of fact he has never been treated at the state department as other ministers have been treated, and has not been accorded the courtesy usually extended to men holding similar positions Mr. Thurston, it is said, does not know who will be his successor, but it is intimated that Frank Hatch may be selected and that he will represent the same ideas and views that have been prominent during the mission of Mr. Thurston. Mr. Hatch is said to be unusually well qualified for the position.

The latest official mail from Hawaii has arrived here. Minister Thurston declined to state whether it contained anything bearing on the request of Secretary Gresham for Mr. Thurston's recall. It is known that it contains a long communication from Mr. Hatch, the Hawaiian minister of foreign affairs, as Mr. Hastings received a brief message saying that such a communication was on its way. If the Hawaiian government has replied, Mr. Thurston would be the natural and only channel of communication to the state department, as he remains the official representative of Hawaii until his recall is actually accomplished. That Secretary Gresham asked for Mr. Thurston's recall there is no longer any doubt, though the manner in which it was put is not yet known.

The Honolulu Advertiser, which has just arrived here clears up a mystery which has long puzzled officials here as to an entry in ex Queen Lilioukalani's diary, stating that on the day specified President Cleveland's present had been received by her. It was at once denied here that the president had ever sent a present to the ex queen. The Advertiser now explains that Mrs. Domini received a copy of the report of the board of public works of Chicago for the year 1893 Some one had taken the trouble to cover it handsomely in cloth and had also secured the personal cards of Mr. Cleveland and Mr. Gresham.

The cards, the paper says, were placed inside the volume with a suitable statement of regard in forwarding it. The ex queen did not doubt the genuineness of the present, it seems, nor suspect that a practical joker had been at work, and accordingly made the entry in her diary. The Honolulu paper states the report contained "plenty of useful information that could be used to advantage by a progressive monarchy."

PEACE ON THE LEVEE.

The Whites and Blacks Working for a Settlement.

The Prospects of an Adjustment of Affairs Brighten With Each Day.

NEW ORLEANS, March 20.—The situation along the river front remains the same today. The militia resumed their vigilant meeting and work of unloading the ships was resumed. In some instances white and colored men are working together. This is notably so on one of the vessels on the other side of the river. When the vessel landed colored men were put to work on her, but the white men objected and the agents, fearing trouble, received a committee and a compromise was effected It was agreed that the work be divided, the whites to have one hatch and the colored the other. Under this arrangement the whites and negroes went to work and since then nothing has occurred to mar their relations. Beyond this incident nothing has happened to cause the slightest excitement Gov. Foster left his house early this morning. His destination was kept secret from reporters, but it is understood that he has gone to make a personal call upon some of the parties interested in the strike for the purpose of making an attempt to bring about a settlement The governor is very anxious to bring about peace.

A Nebraska Bank Closed.

OMAHA, Neb., March 20.—A special to the Bee from Genoa, Neb., says the Genoa State bank closed its doors this morning and is in the hands of the state bank examiner. The bank was reorganized last week, with a woman as president. The assets and liabilities are unknown.

How many more commissions and surveys at a cost of $20,000 or more are we going to have before the United States takes hold and builds that Nicaragua canal?

NINETY-ONE YEARS OLD.

General Neal Dow Honored by the English.

The Distinguished American Temperance Reformer Praised for the Good Deeds of His Life.

LONDON, March 20.—The ninety-first anniversary of the birth of General Neal Dow, the great American temperance reformer, was celebrated last evening in the Wesleyan church, High Gate, this city. Delegations from all the temperance societies were in attendance D. Chrowery Muth, the Christian Brahamia, presided. Mr Roberts, member of parliament, and others addressed the meeting, and H. S Osborn, editor of the Lantern, a publication devoted to Christian workers, lectured on 'Neal Dow, Maine and the Maine law." The meeting which was remarkable for the great enthusiasm prevailing passed a resolution warmly congratulating General Dow upon the attainment of his ninety first birthday and recording the deep appreciation of the meeting with his immeasurable services in the cause of temperance and prohibition to humanity and to God, and rejoicing in their widespread acceptance which assured the ultimate triumph of the principles he has untiringly advocated. In conclusion the meeting sent General Dow greetings in the wording of Numbers VI, verses 24 25 and 26, as follows.

"The Lord bless thee and keep thee."

"The Lord make His face shine upon thee and be gracious unto thee"

"The Lord lift up His countenance upon thee and give thee peace"

O'DONNELL KICKS.

Don't Like the Way He Was Treated at Boston.

Says He Out-Pointed Kilrain in the Sparring Match and Should Have Been Declared Winner.

NEW YORK, March 20.—The following card from Steve O'Donnell has been made public: "May the best man win. This, I believe, is the motto of American sportsmen. I was engaged on Monday night to meet Jake Kilrain in an eight round scientific exhibition in Boston. It was represented to me that at the end of eight rounds an unbiased decision should be given by the referee. That gentleman stated that if he was unable to give a judgment at that time he would order the contest continued and the man refusing to go on should receive the adverse decision. At the end of the eighth round I was willing to continue, but Mr. Kilrain refused to do so. I went to Boston, fought Mr. Kilrain honestly and fairly, outpointed him one hundred to one, and at the end the best I received was a draw. I believe I have been unfairly treated. I don't pretend to be a knocker-out, but simply practice boxing as a science. I defeated Mr Kilrain and was robbed of the decision in a disgraceful manner. This will be admitted by any honest man who saw the contest. If Mr Kilrain will consent to meet me again in or about New York with a competent referee I will give the entire receipts if I don' defeat him in eight rounds or less. If Mr. Fitzsimmons thinks I am counterfeit, I will meet him in four or six weeks time before any reputable club in this country, for a side stake and purse, winner to take all. In fact, I will meet any man in the world, barring James J. Corbett, at one week's notice, and I hope that in my coming contest with Peter Maher, which is to take place on or about May 15, I may be able to prove that I am all that my friends have claimed me to be."

COMMITTED SUICIDE.

Business Worries and Reverses Lead to the Deed.

INDIANAPOLIS, Ind., March 20.—Otto B. Paulina, one of the owners of the Western Furniture company, was found dead in his back parlor with a bullet hole through his head. He had committed suicide. On the table was a note written in German It bade the members of the family goodbye and said: "A man had better not be born than live in this world of worry"

SEVERE STORM.

A Tornado Swoops Down Upon the South.

At Augusta, Ga., It Assumes the Form of a Cyclone and Destroys Much Property.

COLUMBUS, Ga., March 20.—A heavy wind in the nature of a whirlwind passed over this city and Girard, Ala., at 5 15 o'clock this morning No damage was done on this side of the river, but three residences were leveled on the Alabama side. The Columbus Fertilizing company's building was partly unroofed.

AUGUSTA, Ga., March 20—At 9 o'clock this morning a tornado struck Augusta back of the old Lafayette race course. The first house struck was hurled across McKinnie street and thrown against the house on the opposite side. Its sole occupant, a colored woman, was badly, but not fatally hurt Nothing but the floor of the house was left. In the next house demolished a negro woman and five children were buried under the wreckage, but after an hour's hard work were rescued alive, though some were badly bruised. In the central and southern part of the city many houses were wrecked and all along the path of the storm, trees, fencing and outhouses were leveled. A small house was hurled through the roof and into one of the big rooms of the Miller flour mills The Central railroad roundhouse and paint shops were badly damaged and one engine smashed under the debris It is extraordinary that no lives were lost and that few people were hurt The entire police and fire forces, reinforced by large bodies of citizens are at work on the ruined houses and those who have been hurt are being cared for at the hospitals.

FITZ RUNS AMUCK!

Escapade of a Fort Wayne Insurance Man at Anderson.

M. E. Fitzgibbon and Fannie Jones, a Spiritualistic Medium, Arrested and Taken to Jail.

M. E. Fitzgibbon, who is well known in this city and who for some time past has been engaged in the insurance business here, is still in trouble at Anderson as will be seen by the following which we take from last evening's Logansport Daily Reporter

"The case of M E. Fitzgibbon, a former well known agent for a life insurance company in Logansport, has set all Anderson by the ears

"Fitzgibbon and Fannie Jones, a well known medium of Muncie, were arrested at 12:50 yesterday morning while making their escape from the rear entrance of the Anderson hotel, on their way to the Panhandle depot, where, it is alleged they intended to take the midnight train out of the city. They were placed behind the bars on the charge of improper relations, made by George Jones, of Muncie, the medium's husband.

"According to the story told by him, the two met at the dedication of the Spiritualist Temple at Muncie, February 17 He got to coming to the house to have sittings When he returned to his home at Fort Wayne she followed him, and they both came to Anderson and put up at the Anderson hotel, she announcing herself as a medium. He occupied an adjoining room Jones warned his wife to come home, but she paid no attention to him Sunday night he arrived in the city at 10 o'clock and had the arrests made. When Fitzgibbon registered at the hotel he did so as J. B. Smith, of Logansport. Neither of the prisoners have much to say.

"Fitzgibbon says that he is simply cranky on spiritualism, and is investigating it. This does not seem to satisfy the husband. The matter has attracted the closest interest, as there has been a red-hot warfare at Anderson for the past two months between the spiritualists and anti spiritualists"

IN THE SENTINEL of Monday we published an article referring to the disappearance of Fitzgibbon from this city and his arrest at Anderson. He is married and his wife and family reside in this city. His mother, a kind hearted and honest old lady, lives on Baker street. While here he was the agent of the Ætna Insurance company. He came here from Logansport, where he is quite well known, and lived for quite a number of years at Lafayette Mrs Fannie Jones, the woman in the case, is supposed to be from this city.

The Carson Refinery Fails to Show Up Enough Gold.

Uncle Sam's Officers Take the Matter in Hand and Declare the Shortage to be $60,000.

WASHINGTON, March 20.—Mr. Preston, the director of the mint, today in speaking of the reported defalcation in the Carson, Nevada, mint said that early last month he secured intimation that there was a shortage in the accounts of the smelter and refinery of the Carson mint and that Superintendent Mason, of the New York assay, was immediately detailed to make an investigation. On the face of the accounts there appeared a shortage of 3,000,000 ounces of gold and 3,000,000 ounces of silver, making a total of something less than $60,000. So far as Mr. Preston knows, the responsibility has not been located, but he has no doubt that one or more arrests will be made very soon

LOST THEIR LIVES.

Two Men Perish in a Burning Building.

Five Other Inmates of the House Receive Injuries by Jumping, but Only One Seriously Hurt.

NEW YORK, March 20.—Two men lost their lives in a fire which broke out at 2:15 o'clock this morning in the four story flat house at 168 West Twenty-fifth street. John Kurtz proprietor of the Chimney Corner saloon, Sixth avenue and Twenty-sixth street, was burned to death while trying to save the members of his family. Tony Ketchum, an insurance agent, jumped from the third story window and was so badly injured that he died an hour later. Five others who jumped, escaped without serious injuries. Kurtz was not at home when the fire broke out, but arriving shortly after it was discovered, he proceeded to arouse his family and the other tenants of the building. The last that was seen of Kurtz alive was when he was running up the stairway through the flames. Kurtz's family, who lived on the second floor, all escaped, the two youngest children being dropped from the window while Mrs. Kurtz and her eldest son reached safety by way of the roof.

Rebecca Shamp was severely burned about the neck and shoulders, by attempting to descend by a ladder from the third story, she fell but was caught in a net and escaped without serious injury.

When the fire had been extinguished the dead body of John Kurtz was found in the hallway. The loss by fire and water is about $40,000.

PEORIA, Ill., March 20.—Fire broke out early this morning under the roof of the Dewein building, one of the oldest and largest business structures of the city. The third story containing lodge rooms of the uniform rank, Knights of Pythias, and other orders were burned out. Offices in the second story, and the clothing store of H. A. N. Krissman, boot and shoe stock of J. P. Schenellbacher & Sons, in the first story were damaged by water. A portion of the rear wall fell down during the fire. Loss, $100,000; mostly insured.

PLEA IS INSANITY.

Isaac Bridges Placed on Trial at Terre Haute for Murder.

TERRE HAUTE, Ind., March 20.—The most sensational murder case in this county in many years is on trial here and Isaac Bridges, who has just arrived at manhood's age, was placed on trial for the murder of Mrs. Joseph Montgomery in the early part of last November. He shot her as she was returning home from the theater. Before her death she refused to make an ante-mortem statement, saying that if she died she did not want to leave any testimony to be used in a murder trial. A plea of insanity will be the defense, and to substantiate that plea there will be sensational testimony to the effect that young Bridges was driven insane by the wiles of a designing woman. Bridges inherited about $1,000 a year ago, and, according to the claim of the defense, Mrs. Montgomery secured all of this money and also much of what he received as an employe of the wheel works.

A METALLIC EAGLE

Will Adorn the Hats of Uncle Sam's Army Officers.

WASHINGTON, March 20.—The probabilities are that in the near future the officers of the United States army will take on another designation of rank in the shape of a metallic eagle, to be worn on the front of their hats. The question is under advisement among the head officials of the war department and it is understood that the project is very favorably regarded by many of them. Some of the army officers are urging it on the ground that in European countries the officers wear on their hats the colors of the sovereigns. They hold that it is a place and unmistakeable evidence of nationality as well as of rank and military service and that as the eagle is the national American emblem, it can be adopted to the benefit of the service.

PREPARING FOR COURT ACTION.

Charles Harley to Demand Possession as Warden of an Indiana Prison.

INDIANAPOLIS, March 20.—The directors of the northern prison chosen by the state officers met here yesterday and selected Charles Harley, of Delphi, as warden of that institution. He will go to Michigan City tomorrow and demand possession of Warden French, and, when the latter refuses to deliver the keys, he will file suit for possession at once. The case will be pushed as rapidly as possible and will go to the supreme court. It is hoped to get a decision within thirty days that will settle the matter of the legislature's right to appoint boards of state officers to make other appointments.

WITH A MACHETE.

Eugene Ucenay Attacked and Nearly Killed by a Slave.

SAN DIEGO, Cal., March 20.—Advices have been received of the narrow escape from death of Eugene Ucenay, a former resident of this city, who is now in Nicaragua. Assaulted by a peon employed on the plantation where he is at present located, he barely escaped with his life, being repeatedly slashed with a machete. The matter being called to the attention of the authorities, a farcial examination was held and the offender discharged. Ucenay was offered English protection, but relied upon American support, which was not forthcoming. The matter has been brought to the attention of greater White, an old schoolmate of Ucenay's, who will lay the case before the Washington authorities.

AFFAIRS OF THE ORIENT.

Japanese Cruisers Searching for Contraband Vessels.

The Emperor Preparing to Leave Hiroshima—Prince Komatsu Will Locate at Port Arthur.

TIEN TSIN, March 20.—Four Japanese cruisers arrived off the Taku bar yesterday. They were in search of vessels carrying contraband of war.

YOKOHAMA, March 20.—The emperor will shortly leave Hiroshima for Kioto on the island of Hondo. He will not return to Hiroshima. The gun boat Tatsuta, which was detained at Aden while on her way here by order of the British government, has arrived at this port. The Japanese gunboat Tatsuta, according to a dispatch from Aden on August 25 last, was detained there by order of the British foreign office under the foreign enlistment act, because her captain and crew were British subjects. Moreover, the crew, in view of the neutrality laws, refused to do duty. The Tatsuta left Shields, England, on July 31 for Yokohama. She was built by the Armstrongs at Elswick and was launched on April 6 last. She is of 875 tons register and has a speed of twenty-one knots.

Prince Komatsu, the commander-in-chief of the Japanese armies, is going to establish his headquarters at Port Arthur.

PENSIONS.

There Will be No Change in Appropriations for Three Years.

After That Period Commissioner Lochren Anticipates a Rapid Falling Off in Amount Required.

WASHINGTON, March 20.—Commissioner of Pensions Lochren estimates that there will not be any decreased amount appropriated for pensions during the next three years. The amount appropriated for the fiscal year of 1895 in round numbers is $140,000,000. For the present year the amount was $150,000,000. The reason for the absence of any perceptible decrease in the falling off owing to deaths and other causes, is about counterbalanced by first payments in pensions allowed. As cases are allowed from time to time there are large first payments, sometimes for arrears and always dated from the time the application was filed. The decreases in some classes of claims are quite great, as in the pensions for the war of 1812, which have decreased about 50 per cent. in the past year. After three years, when it is expected that the majority of claims will be adjudicated and there will be a few remaining first payments, Commissioner Lochren expects there will then be a rapid falling off in pensions, as they have now reached the age when it is to be expected. He then expects the pension appropriation will be diminished in size very materially.

BOY STOLEN BY TRAMPS.

Escapes From Them in Mexico and Works His Way Home.

COLUMBUS, Ind., March 20.—Two years ago Kennedy Stewart, aged fourteen, was stolen from this city by two tramps, who made him beg for them. During the first year he was heard from in Iowa, South Dakota, then Texas, then all trace was lost. Last night he returned home, having escaped from his captors in Mexico and worked his way back.

The cases against ex-Supreme Justice Somarby, begun at the same time, will soon be dismissed.

LUCKY JOHN BOHEN.

A Poor Printer Will Marry a Millionaire's Daughter.

The Beautiful and Wealthy Theresa Gertrude Butler Falls in Love With a Type Juggler.

BOSTON, March 20.—John Bohen, a printer of this city, is soon to marry Miss Theresa Gertrude Butler, only daughter of Capt. Howard G. Butler, the Philadelphia millionaire. The engagement has been kept a secret, it is said, at the desire of the young woman's parents, who do not favor the match. After an extended tour in Europe in pursuit of her studies, during which she received the attentions of many titled butterflies, Miss Butler returned home. She is a beautiful girl, the idol of her mother's heart and the pride of her rich father, with three-quarters of a million in her own right. Last August Miss Butler, with her parents, went to Newport, where they were guests of Mrs Bigelow. At about the same time Mr. Bohen, with a party from Boston, went to Newport to attend a dance given in the Newport bazaar. There he first met Miss Butler. They met often and the story goes that the girl's parents ordered Bohen to cease his attentions. The order was not obeyed and secret meetings followed.

In this way a month was passed and then Mr. Bohen returned to Boston and they began to communicate by letter, becoming engaged about the middle of last January. Mr and Mrs. Butler protested, but their daughter insisted that she loved young Bohen and that his poverty should not be a bar to their union. Then the parents gave their consent and on Washington's birthday the couple met in New York and made arrangements for their marriage. The wedding will take place in the home of the bride's parents on Chester avenue, in Philadelphia, but there will be no display. It is planned that their honeymoon will be spent in a New England town and then the couple will go to Europe for a year. Miss Butler is twenty-four years old. Mr. Bohen is a year her senior. The latter has been a compositor on several of the Boston daily newspapers. Captain Butler is said to be worth nearly $2,000,000 and is well known on Wall street.

WOMAN DETECTIVE.

Miss Leona Northrup Figures in That Role.

She Creates a Scene in a Milwaukee Court by Her Testimony in the Alms House Case.

MILWAUKEE, Wis., March 20.—A woman detective materialized in the municipal court yesterday in the person of Miss Leona Northrup, the stenographer, who is playing an important part in the alms house conspiracy trial. A scene approaching the dramatic took place when she testified that she could positively identify all the sheets she copied for insertion in the specifications, but when she said the method by which she recognized the pages was derived from one of Dr. Conan Doyle's stories, she created an interest that was nearly sensational. Miss Northrup related the incidents of a strange man coming into her office and asking her to make six copies of page twenty-eight of the specification. When District Attorney Brazes asked Miss Northrup if she could find any distinguishing marks about the pages she promptly replied that she could. The ink on the page was slightly darker than that used in making the other pages, and the one written by her showed signs of having been written at a later date. It had certain type which were slightly broken and blurred that were on her typewriter.

TWO MEN ARRESTED.

Hunt and Miller Held to Answer to Murder.

Charged With Complicity in the Killing of Poor Mrs. Hollen, Near Brocksburg.

BUTTE, Mont., March 20.—County Attorney C. W. Lear is now at the scene of the lynching of Mrs. Hollen, near Brocksburg. Word was received here today that they had arrested two men named Hunt and Miller as the perpetrators of the dreadful deed, and will bring them in at once. These men are desperate characters, and have been mixed up in a number of lawless affairs. Their latest known exploit was the holding up of Dr. Ellison the road from Butte to Bonesteel, S. D., some two weeks ago. Attorney General Churchill will probably reach here tomorrow. He has been ordered here by the governor to investigate the case. Hunt and Miller, it is believed, are only two of a number of men who were interested in putting the poor woman out of the way, though probably not more than two were actually engaged in it.

GENERAL BADEU DEAD.

Was One of General Grant's Staff Officers.

RIDGEWOOD, N. J., March 20.—General Adam Badeu, who was on the staff of General Grant as military secretary, and who afterwards served as secretary of the American legation in London, is dead, aged sixty-four years.

WILL CARRY GUNS.

The Allianca Rigged Out in Battle Attire.

NEW YORK, March 20.—The steamer Allianca, which was fired upon by a Spanish gun boat, will sail for Colon today. A report that she is to carry rifles and munitions of war when she puts to sea was confirmed by the agents of the line. The fact of her so doing, they explain, was not at all remarkable nor in any way sensational. The company acts as carriers of arms to the Columbian government on nearly every trip of its vessels. It is a perfectly legitimate trade and violates no law.

THURSTON SNUBBED.

The Administration at Washington Don't Like Him.

He Has Never Been Treated With Due Respect and Now His Withdrawal Has Been Requested.

WASHINGTON, March 20.—An intimate friend of Minister Thurston, now in Washington, says that Mr. Thurston has no official information as to the request for his recall, while at the same time no doubt exists on the part of the minister that such a suggestion has been made to the Hawaiian government. It is not likely, however, that Mr. Thurston will leave this country. He will continue, it is stated, to look after Hawaiian interests in an unofficial manner. Mr. Thurston's friend says that as a matter of fact he has never been treated at the state department as other ministers have been treated, and has not been accorded the courtesy usually extended to men holding similar positions. Mr. Thurston, it is said, does not know who will be his successor, but it is intimated that Frank Hatch may be selected and that he will represent the same ideas and views that have been prominent during the mission of Mr. Thurston. Mr. Hatch is said to be unusually well qualified for the position.

The latest official mail from Hawaii has arrived here. Minister Thurston declined to state whether it contained anything bearing on the request of Secretary Gresham for Mr. Thurston's recall. It is known that it contains a long communication from Mr. Hatch, the Hawaiian minister of foreign affairs, as Mr. Hastings received a brief message saying that such a communication was on its way. If the Hawaiian government has replied, Mr. Thurston would be the natural and only channel of communication to the state department, as he remains the official representative of Hawaii until his recall is actually accomplished. That Secretary Gresham asked for Mr. Thurston's recall there is no longer any doubt, though the manner in which it was put is not yet known.

The Honolulu Advertiser, which has just arrived here clears up a mystery which has long puzzled officials here as to an entry in ex-Queen Liliuokalani's diary, stating that on the day specified President Cleveland's present had been received by her. It was at once denied here that the president had ever sent a present to the ex-queen. The Advertiser now explains that Mrs. Dominis received a copy of the report of the board of public works of Chicago for the year 1893. Some one had taken the trouble to cover it handsomely in cloth and had also secured the personal cards of Mr. Cleveland and Mr. Gresham.

The cards, the paper says, were placed inside the volume with a suitable statement of regard in forwarding it. The ex-queen did not doubt the genuineness of the present, it seems, nor suspect that a practical joker had been at work, and accordingly made the entry in her diary. The Honolulu paper states the report contained "plenty of useful information that could be used to advantage by a progressive monarchy."

PEACE ON THE LEVEE.

The Whites and Blacks Working for a Settlement.

The Prospects of an Adjustment of Affairs Brighten With Each Day.

NEW ORLEANS, March 20.—The situation along the river front remains the same today. The militia resumed their vigilant meeting and work of unloading the ships was resumed. In some instances white and colored men are working together. This is notably so on one of the vessels on the other side of the river. When the vessel landed colored men were put to work on her, but the white men objected and the agents, fearing trouble, received a committee and a compromise was effected. It was agreed that the work be divided, the whites to have one batch and the colored the other. Under this arrangement the whites and negroes went to work and since then nothing has occurred to mar their relations. Beyond this incident nothing has happened to cause the slightest excitement. Gov. Foster left his house early this morning. His destination was kept secret from reporters, but it is understood that he has gone to make a personal call upon some of the parties interested in the strike for the purpose of making an attempt to bring about a settlement. The governor is very anxious to bring about peace.

A Nebraska Bank Closed.

OMAHA, Neb., March 20.—A special to the Bee from Genoa, Neb., says the Genoa State bank closed its doors this morning and is in the hands of the state bank examiner. The bank was reorganized last week, with a woman as president. The assets and liabilities are unknown.

How many more commissions and surveys at a cost of $10,000 or more are we going to have before the United States takes hold and builds that Nicaragua canal?

NINETY-ONE YEARS OLD.

General Neal Dow Honored by the English.

The Distinguished American Temperance Reformer Praised for the Good Deeds of His Life.

LONDON, March 20.—The ninety first anniversary of the birth of General Neal Dow, the great American temperance reformer, was celebrated last evening in the Wesleyan church, High Gate, this city. Delegations from all the temperance societies were in attendance. D. Chrowery Muth, the Christian Brahaman, presided. Mr Roberts, member of parliament, and others addressed the meeting, and H. S. Osborn, editor of the Lantern, a publication devoted to Christian workers, lectured on "Neal Dow, Maine and the Maine law." The meeting which was remarkable for the great enthusiasm prevailing passed a resolution warmly congratulating General Dow upon the attainment of his ninety first birthday and recording the deep appreciation of the meeting with his immeasurable services in the cause of temperance and prohibition to humanity and to God, and rejoicing in their widespread acceptance which assured the ultimate triumph of the principles he has untiringly advocated. In conclusion the meeting sent General Dow greetings in the wording of Numbers VI, verses 24, 25 and 26, as follows:

"The Lord bless thee and keep thee."

"The Lord make His face shine upon thee and be gracious unto thee."

"The Lord lift up His countenance upon thee and give thee peace."

O'DONNELL KICKS.

Don't Like the Way He Was Treated at Boston.

Says He Out-Pointed Kilrain in the Sparring Match and Should Have Been Declared Winner.

NEW YORK, March 20.—The following card from Steve O'Donnell has been made public: "May the best man win. This, I believe, is the motto of American sportsmen. I was engaged on Monday night to meet Jake Kilrain in an eight round scientific exhibition in Boston. It was represented to me that at the end of eight rounds an unbiased decision should be given by the referee. That gentleman stated that if he was unable to give a judgment at that time he would order the contest continued and the man refusing to go on should receive the adverse decision. At the end of the eighth round I was willing to continue, but Mr. Kilrain refused to do so. I went to Boston, fought Mr. Kilrain honestly and fairly, outpointed him one hundred to one, and at the end the best I received was a draw. I believe I have been unfairly treated. I don't pretend to be a knocker-out, but simply practice boxing as a science. I defeated Mr. Kilrain and was robbed of the decision in a disgraceful manner. This will be admitted by any honest man who saw the contest. If Mr. Kilrain will consent to meet me again in or about New York with a competent referee I will give the entire receipts if I don't defeat him in eight rounds or less. If Mr. Fitzsimmons thinks I am counterfeit, I will meet him in four or six weeks time before any reputable club in this country, for a side stake and purse, winner to take all. In fact, I will meet any man in the world, barring James J. Corbett, at one week's notice, and I hope that in my coming contest with Peter Maher, which is to take place on or about May 15, I may be able to prove that I am all that my friends have claimed me to be."

COMMITTED SUICIDE.

Business Worries and Reverses Lead to the Deed.

INDIANAPOLIS, Ind., March 20.—Otto B. Paulina, one of the owners of the Western Furniture company, was found dead in his back parlor with a bullet hole through his head. He had committed suicide. On the table was a note written in German. It bade the members of the family goodbye and said "A man had better not be born than live in this world of worry."

SEVERE STORM.

A Tornado Swoops Down Upon the South.

At Augusta, Ga., It Assumes the Form of a Cyclone and Destroys Much Property.

COLUMBUS, Ga., March 20.—A heavy wind in the nature of a whirlwind passed over this city and Girard, Ala., at 5:15 o'clock this morning. No damage was done on this side of the river, but three residences were leveled on the Alabama side. The Columbus Fertilizing company's building was partly unroofed.

AUGUSTA, Ga., March 20.—At 9 o'clock this morning a tornado struck Augusta back of the old Lafayette race course. The first house struck was hurled across McKinnie street and thrown against the house on the opposite side. Its sole occupant, a colored woman, was badly, but not fatally hurt. Nothing but the floor of the house was left. In the next house demolished a negro woman and five children were buried under the wreckage, but after an hour's hard work were rescued alive, though some were badly bruised. In the central and southern part of the city many houses were wrecked and all along the path of the storm, fences, fencing and outhouses were leveled. A small house was hurled through the roof and into one of the big rooms of the Miller flour mills. The Central railroad roundhouse and paint shops were badly damaged and one engine smashed under the debris. It is extraordinary that no lives were lost and that few people were hurt. The entire police and fire forces, reinforced by large bodies of citizens are at work on the ruined houses and those who have been hurt are being cared for at the hospitals.

FITZ RUNS AMUCK!

Escapade of a Fort Wayne Insurance Man at Anderson.

M. E. Fitzgibbon and Fannie Jones, a Spiritualistic Medium, Arrested and Taken to Jail.

M. E. Fitzgibbon, who is well known in this city and who for some time past has been engaged in the insurance business here, is still in trouble at Anderson as will be seen by the following which we take from last evening's Logansport Daily Reporter.

"The case of M. E. Fitzgibbon, a former well known agent for a life insurance company in Logansport, has set all Anderson by the ears.

"Fitzgibbon and Fannie Jones, a well known medium of Muncie, were arrested at 12.50 yesterday morning while making their escape from the rear entrance of the Anderson hotel, on their way to the Panhandle depot, where, it is alleged they intended to take the midnight train out of the city. They were placed behind the bars on the charge of improper relations, made by George Jones, of Muncie, the medium's husband.

"According to the story told by him, the two met at the dedication of the Spiritualist Temple at Muncie, February 17. He got to coming to the house to have sittings. When he returned to his home at Fort Wayne she followed him, and they both came to Anderson and put up at the Anderson hotel, she announcing herself as a medium. He occupied an adjoining room. Jones warned his wife to come home, but she paid no attention to him. Sunday night he arrived in the city at 10 o'clock and had the arrests made. When Fitzgibbon registered at the hotel he did so as J. B. Smith, of Logansport. Neither of the prisoners have much to say.

"Fitzgibbon says that he is simply cranky on spiritualism, and is investigating it. This does not seem to satisfy the husband. The matter has attracted the closest interest, as there has been a red-hot warfare at Anderson for the past two months between the spiritualists and anti spiritualists."

In THE SENTINEL of Monday we published an article referring to the disappearance of Fitzgibbon from this city and his arrest at Anderson. He is married and his wife and family reside in this city. His mother, a kind hearted and honest old lady, lives on Baker street. While here he was the agent of the Ætna Insurance company. He came here from Logansport, where he is quite well known, and lived for quite a number of years at Lafayette. Mrs. Fannie Jones, the woman in the case, is supposed to be from this city.

MINT SHORTAGE.

The Carson Refinery Fails to Show Up Enough Gold.

Uncle Sam's Officers Take the Matter in Hand and Declare the Shortage to be $60,000.

WASHINGTON, March 20.—Mr. Preston, the director of the mint, today in speaking of the reported defalcation in the Carson, Nevada, mint said that early last month he secured intimation that there was a shortage in the accounts of the smelter and refinery of the Carson mint and that Superintendent Mason, of the New York assay, was immediately detailed to make an investigation. On the face of the accounts there appeared a shortage of 3,001,100 ounces of gold and 3,000,000 ounces of silver, making a total of something less than $60,000. So far as Mr. Preston knows, the responsibility has not been located, but he has no doubt that one or more arrests will be made very soon.

DANSE.

Last evening about 4 o'clock at the home of his son, No. 123 Fairfield avenue, occurred the death of A. M. Danse, aged seventy-eight years. Deceased was born in Paris, France, and came to this county early in life, settling first in Pennsylvania. For over thirty years he was a professor of the French language in the Western University of Pennsylvania. He came to this city with his son and the family were about to move back to Pittsburg when the old gentleman took sick. The cause of his death was a general breaking down of the entire system. The funeral will be held this afternoon at 4 o'clock.

H. C. SCHRADER'S FATHER.

H. C. Schrader, the well known insurance man, this morning received a telegram from Kenton, Ohio, announcing the sad death of his father, William Schrader. The deceased was eighty-three years of age and leaves a wife and three sons, Theodore and Charles, of Kenton, and H. C., of this city. He was a man of sterling, upright character and highly respected in the community in which he lived for so many years. He has visited Fort Wayne at various times, but not lately. Dr. W. F. Schrader is a grandchild and he and his uncle left this afternoon to attend the funeral, which will likely be held on Friday.

MRS. THOS. HAMILTON.

The many friends of Mrs. Elizabeth Hamilton will be pained to learn of her death, which occurred suddenly on Wednesday, the 13th, of apoplexy, at East Springfield, N. Y. She was in her usual health on Monday and spent the afternoon and early evening with neighbors, and, on returning home, was stricken with apoplexy. She remained unconscious from that time until death came to her relief. Mrs. Hamilton was born at East Springfield, Oswego county, New York, June 5, 1823, and while very young removed with her parents to Fort Wayne.

On December 17, 1839, she was united in marriage to Thomas Hamilton, uncle of Hon. A. H. and Montgomery Hamilton. Many years ago she united with the M. E. church and was a member of Bowers Chapel. Mrs. Hamilton was a woman of rare intelligence and such kindly traits as to endear her to all who came within her circle of acquaintances. Her funeral, which was largely attended took place on Friday at 2 o'clock p. m. Mr. and Mrs. W. McIndoe, Mrs. Templeton and Peter Rudolph Pickel, from New York city, attended the funeral.

The tree fell the opposite direction from that intended by the men, and a limb struck the boy on the head, causing instant death. Coroner Harrod was notified about 4 o'clock and went out to the scene of the accident.

SIX O'CLOCK.

WEARY WOMEN WATCH FOR THAT BLESSED HOUR.

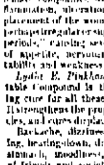

Help for our Working-Girls and Women Near at Hand.

At the stroke of six o'clock the day's work at stores, offices, factories, mills, where women are employed, is ended. But there are many whose work at home, sewing, mending, etc., must be done after that time and whose work is never done!

All women work; some for ambition, some for existence, others in the household, but the great mass of women work for their daily bread. All are subject to the same physical laws, all suffer alike from the same physical disturbances, and the nature of their duties often quickly drifts them into the horrors of all kinds of female complaints, ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhœa, and perhaps irregular or suppressed "monthly periods," causing severe backache, loss of appetite, nervousness, irritability and weakness.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles, and cures displacement.

Backache, dizziness, fainting, bearing-down, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled. Write Mrs. Pinkham about your trouble.

You can tell the story of your pain to a woman, and get the help that only woman can give. Mrs. Pinkham's address is Lynn, Mass.

Our winter has ended and spring is here.

When Mrs. Mary Ellen Lease gets to be mayor of Wichita, Kan., the police force will have to wear petticoats.

Our board of public works ought to arrange at once for the erection of drinking fountains along our principal streets.

With spring here, active preparations should be commenced at once for cleaning up the streets and alleys of the city. Disease-breeding filth should be removed thoroughly.

S. E. Nicholson, of Kokomo, author of the temperance act which bears his name, yesterday became president of the Good Citizens' League of Indiana, succeeding Solon L. Goode.

Ex-Representative Nicholson says he has been led to believe that the liquor league will test the constitutionality of the Nicholson bill as soon as opportunity presents itself. He says he has no doubt that the bill is sound and will stand all tests.

Thomas A. Starr, senior editor and proprietor of the Goshen News, has become editor, general manager, treasurer and part owner of the Toledo Bee. The Bee is the best and brightest paper in northern Ohio and its "buzz" has for years been welcome to thousands of readers in northern Ohio and southern Michigan. The incorporation into it of Hoosier editorial brains (which, according to our notion, is the best in the Union) will make it a brighter paper than ever before.

In speaking or writing of a clergyman who is a doctor of divinity, is it proper to use both titles, "Rev." and "Dr." before his name? In other words, is Rev. Dr. Smith correct?—Subscriber.

Yes. The best writers and the leading church and metropolitan newspapers use both titles at the same time. It is proper to say Rev. G. W. Smith, the Rev. G. W. Smith, Rev. Mr. Smith, Mr. Smith, if you have used the "Rev." once before; Rev. Dr. G. W. Smith, Rev. Dr. Smith, with the prefix "the" before either, and also Dr. Smith. It is never proper to say Mr. Smith, if he be a "D. D.," but Dr. Smith. Not long since The Sentinel was criticised for using "Rev. Dr." before a clergyman's name, who was a "D. D.," but "Rev. Dr." is correct, as are also the appellations we give above.

Concerning section 2 of the new Nicholson law, the Indianapolis Journal apprehends there may be a difference of opinion as to the construction of the law and the courts may have to pass on the same. It says: "This section does not interfere with the sale of cigars and tobacco in saloons nor require any special license therefor, while it leaves it optional with county commissioners to grant or refuse permission to carry on any other business in the same room. It is explicit, however, that 'no devices for amusement or music of any kind or character shall be permitted in such rooms.' Under these provisions the question may arise whether billiard and pool tables are to be classed as a business or as devices for amusement. If the former, they may by special license be permitted in connection with saloons, but if they are devices for amusement they cannot be. There is a chance here for some fine judicial hair splitting."

Protecting Our Fish.

Men who find delight in taking fish are sending many letters of inquiry to the newspapers and to state officers about the two fish laws passed by the recent general assembly. Some of the newspapers have misstated the Holler act. It provides that it shall be unlawful for anyone to take any fish from any of the lakes of the state between the first day of April and the 15th day of June. The word 'lakes' and not "lakes and streams," is used in this act. The McDonald act, authorizing justices of the peace to issue warrants for the search of implements with which fish are unlawfully taken names both lakes and streams.

One of the attorneys of this city, in reply to a question from a Sentinel representative concerning the fish law, said:

"I have not seen the law yet, but in substance it is not to permit any one to fish in any lake between the first day of April and the 15th day of June, during the season of spawning. This law does not apply to small streams and rivers, and any one can fish in these streams at any time. This law will be of great benefit to black bass, as they spawn during the time above stated. Heretofore during this season, persons would catch the old ones and then the eggs or young ones would fall a prey to snakes, muskrats, and other fish." He further stated that the clause providing a heavy fine for people who were caught fishing through holes in the ice was bitterly fought, and they were compelled to let that part go.

Wealth of Nations.

England dominates the world's money market because her manufacturers have heaped up so much wealth that its owners invest it abroad. England is therefore the creditor nation of the world. Her foreign investments, many of them in the United States, are put at $8,000,000,000, bringing in to her an annual income in interest and dividends of $440,000,000. The result is that the wealth of Great Britain, as adjudged from the income tax, is greater than that of any other nation. It amounts to $1,000 per capita for all her population of 37,000,000. France comes next, with a valuation of $1,081 per head of population. In the United States the wealth is about $1,000 to each individual.

It is interesting to note how the world's wealth has increased in the last half century. The rate of increase and the manner of it are alike worth noting. The figures of increase do not really represent so great a gain in houses, personal property, machinery, etc. They represent often a mere rise in price of the same articles. The same plot of ground that was worth $1,000 a generation ago is valued at $2,000 now. It will raise no more grain or food products. One who cultivates it can get no more off it than he could then. Counting the interest on the value of the land, therefore, he is for practical purposes poorer than he was when his ground was only worth half so much. One difficulty in the way of obtaining exact statistics of wealth in the American Union is the fact that thinly settled states, on account of excessive land valuation, often figure as much richer than they are, for practical purposes, at any rate.

Australia has been reckoned as the wealthiest land per capita of its inhabitants on the globe. But Australia is practically owned by Great Britain, so immense are the home country's investments in the southwestern continent. In Australia, too, excessive land valuation has made the people seem richer than they are.

Judging by that increased valuation, which will yield neither additional food, clothing nor shelter, the price of dwelling houses alone in Great Britain has increased in one generation 600 per cent.

The Ladies Objected.

Rev. J. M. W. Deshong preached with great fire and zeal to a colored congregation in Fayetteville, Tenn. Colored people like fire and zeal, and for a time the Rev. Deshong's sermons had great acceptance. Sinners were awakened, and at the altar of penitence they howled mightily as the good work went on.

With the zeal of a martyr Rev. Deshong began to weed out the sinners in his congregation from the saints. "I divide you into sheep and goats," he said. "In the last great day the sheep will sit on the right hand and the goats on the left. Next Sunday I will read out loud to you from this pulpit a list of the sheep and another of the goats in my congregation."

Next Sunday the church was crowded. All Fayetteville wanted to know particularly who the sheep were and still more particularly who were the goats. Brer Deshong read out the lists as he threatened. On the goat list were the names of some of the most prominent colored ladies of the congregation. These dear sisters fired up at being called goats before all the people. Their rage surpassed even their Christianity, and one night they got another goat, presumably of the male persuasion, to shoot at Brer Deshong as he reposed in his room after the labors of the day were over. But the bullet did not hit Brer Deshong still lives to call the sisters goats.

The southern republics are warmly interested in the Atlanta exposition. Venezuela has asked H. B. Plant of the Plant railway and steamship lines to establish a line of steamers between a port on that republic and Tampa, Fla.

Paine's Celery Compound is Making People Well

Its Wide Use Today Over Three Continents.

"Tis the One Undisputed Remedy That Cures.

Ordered by Physicians Wherever One Practices.

Wherever the English language is spoken and English newspapers and medical journals are read, there you will find Paine's celery compound is ordered for all forms of weakness.

At home, as well as abroad, throughout the United States, in every state, city and village the one undisputed, strongly commended, unfailing remedy for the spring is Paine's celery compound.

As a nerve strengthener and regulator, blood purifier and bodily invigorator there is nothing that bears any relation or at all resembles or in any measure equals Paine's celery compound.

It stands by itself, unrelated to any sarsaparilla, nervine or tonic the world has ever known, and as far superior to them as the diamond is to ordinary glass.

Its discovery by Prof. Edward E. Phelps, M. D., LL. D., in the laboratory of Dartmouth medical school was as noteworthy an event in medicine, as the wonderful cures it has effected have been remarkable.

Where everything else fails Paine's celery compound cures! Try it!

"A Fool in Spots."

By Hallie Erminie Rives, is a novel fresh from the press, the scenes of which are laid in New York city and the blue grass region of Kentucky. The authoress is herself a Kentucky girl, and a cousin of Amelie Rives Chanler, and in laying the scenes of her novel in Kentucky and New York city she furnishes an opportunity for the free play of her rare descriptive powers. There is not an uninteresting line between the covers of this book. The impassioned language, the bold, terse and spicy conversations, and the rapidly succeding incidents through which Cherokee Bell, the Kentucky heroine, shows herself "A Fool in Spots" in her experiences in New York society—but from all its temptations and snares emerges a pure woman—holds the reader's attention from beginning to end. Miss Rives displays rare talent as a novelist, and bids fair to become as popular as her well-known cousin.

TEN GOOD REASONS

Why the New Discovery for the Cure of Dyspepsia Surpasses Anything Heretofore Known for Stomach Troubles and Imperfect Digestion

It has been recently stated that not less than 10,000 physicians are now using or indorsing the new discovery for indigestion sold by druggists under the name of Stuart's Dyspepsia Tablets. Dr. Tomlinson gives the following reasons why physicians regard this new remedy with so much favor:

First, because it is not a secret patent medicine, but a scientific combination of vegetable essences, pure aseptic pepsin, free from animal impurities and of very high digestive power, bismuth and golden seal.

It has been tested repeatedly and the experiments have proven that one grain of the digestive principles in Stuart's Dyspepsia Tablets will digest three thousand times its own weight of lean meat, eggs, oatmeal and similar wholesome foods.

The tablets act wholly upon the food taken into the stomach, digesting it thoroughly no matter whether the stomach is in good working order or not, and cure all forms of dyspepsia and stomach troubles on the common sense plan that they nourish the body and *rest* the stomach at the same time.

Stuart's Dyspepsia Tablets do not act upon the bowels like the old-fashioned after-dinner pills, nor are they an artificial stimulant like "stomach bitters," nor are they in any way similar to so called predigested foods, which consist of 85 per cent. of "glucose," the stuff that cheap candies are made from, but Stuart's Dyspepsia Tablets do, what none of these do, they act wholly upon the food eaten and digest it completely and the cure of indigestion is an assured fact, because the food being promptly digested, it cannot lie for hours in the stomach, fermenting, decaying, filling the system with the germs of disease, but is assimilated, nourishing and invigorating not only the body and brain, but the stomach itself, as well.

The tablets are absolutely harmless and can be given and are given with benefit to little children and infants suffering from indigestion, as shown above they contain no mineral poisons, nor anything in any way injurious.

Dr. Wuerth says he has noticed in many cases that the tablets not only cured the indigestion, but that a very noticeable increase of flesh resulted where people who used the tablets were thin and run-down in flesh, before taking them and it is not at all surprising that such should be the case when it is remembered that most people are thin, because their stomachs are out of order and when perfect indigestion is brought back an increase of flesh is the natural accompaniment.

Within the last six months many thousand cases of stomach trouble and dyspepsia have been cured by Stuart's Dyspepsia Tablets and their convenience and popularity is such that druggists everywhere are now selling them, the price is 50 Cents per package and if your druggist has not yet ordered them he will get them for you from his wholesaler; they are manufactured by Stuart Co., Marshall, Mich.

Your druggist if he is honest will tell you that Stuart's Dyspepsia Tablets is the only preparation now before the public recommended and designed solely for the cure of indigestion and stomach troubles, no other claims are made for it, it is not claimed to be a cure-all.

One Way of Curing Insomnia.

"I was cured of an annoying propensity to sleep at the wrong time in rather an original way," said Sweeter.

"Some time ago there were a number of nights when I could not sleep until just before it was time to rise in the morning. Then of course it was hard to wake me. My friends advised all sorts of remedies, but my wife set her wits to work and found the right one. The next night I fell into a light doze after I got into bed, but in less than 10 minutes I was as wide awake as ever, pitching and tossing and unable to close my eyes. Well, my wife got up, struck a match and pretended to look at her watch. Then she said:

"'I wouldn't try to go to sleep, dear, as it will soon be time for you to get up now.'

"That settled it. In three minutes I was asleep and slept like a log. This was repeated once or twice, and now I get my regular sleep every night. The best of it was that I didn't know for a number of days the little ruse that had been employed to send me to sleep."—Tit Bits.

George Washington Was Absent.

A 4 year old was very much interested by the fact that some special performances at the kindergarten which he attends were to celebrate Washington's birthday. He had enjoyed a birthday of his own some months before and had also attended the birthday party of a little friend. Consequently his expectations as to Washington's birthday took some definite form.

When his father came home Friday evening, the celebration was, of course, the first topic of conversation. His father asked with regard to a neighbor, "Was Mrs. C. there?"

"No," was the child's reply, "and George Washington wasn't either."—Pittsburg Dispatch.

RAILWAYS AND SHOPS.

The Six Burned Wabash Engines Brought Here.

Edward Polhamus Dies in Pueblo—Uncle Jimmy Means Goes to Chicago on a Sad Mission.

C. Ross, of the Nickel Plate, has been assigned a regular engine.

Elsworth Fox, of the electric works, is off duty on account of sickness.

E. White, of the Pittsburg shops, is off duty presumably on account of sickness.

Stenographer T. J. Kueber, of Supt. C. D. Law's office, went to Chicago this morning.

The specimen ore car has been returned to this city and is now in the car shop yards.

C. S. Knight has returned to the city after a business trip in the interest of the electric works.

Among the visitors in this city Monday was John Steel, roundhouse foreman at Stony Island.

Nickel Plate Conductor G. B. McCormack reported for duty yesterday, after a week's vacation.

Thomas Cooper, of Columbus, Ohio, a representative of the Electric Light company, is in the city.

Terrence Martin and Joseph Carry have resumed work in the Pittsburg shops after a few days' absence.

Frank Shaefer, of the Pittsburg machine shop, will leave this evening for Indianapolis to remain over Sunday, the guest of friends.

W. Greenslade is sorely afflicted with boils, having three or four of them at present. He is a brakeman on the Nickel Plate and is off duty for treatment.

John Martin, who has been the guest of his brother, Inspector Charles Martin, of the electric light company, during the winter, has returned to Bay City, Mich.

Supt. C. H. Walton, of the Chicago division of the Panhandle road, came here last evening to see his mother, who is much better than she had been for several weeks.

Louis Zwick and William Doehrman, of Bingen, Adams county, left at noon today over the Pittsburg for Writh, Ark. If they like that country they will probably invest in land and remain there.

Mrs. Mary Groman, of Decatur, Ind., is lying very ill at the home of Engineer and Mrs. John Palmer, No 8 Lavina street. Mrs. Groman came here on a visit two weeks ago and has been sick nearly ever since.

The Illinois Steel company has been awarded the contract to furnish 150 miles of steel rails for the Trinity, Cameron and Western, which is to be built in the interest of the Missouri, Kansas and Texas.

The employes' saving fund of the Pennsylvania company, which is entirely distinct from the relief department, now has [4,112 depositors. The amount received during 1894 was $305,-015, and the amount in the fund has reached $1,354,595.

Foreman James Hewes, of the Pittsburg boiler shop, went to Chicago this morning, in response to a telegram informing him of the death of his brother-in-law, Thomas Kirtland, which occurred last evening. The remains will be sent to Reading, Pa., for interment.

The Erie and Lackawana roads have issued notices to the effect that they have decided to sell no more mileage tickets. This opens a new feature in the trunk line situation and leads to the belief that it is the entering wedge to adopting a two-cent-a-mile rate on all classes of tickets.

The Crestline accommodation, No. 36, and its mate, No. 35, now have a combination baggage and passenger car, instead of an exclusive baggage car. This morning No. 36 carried the Blue Jeans company to Lima, and for their accommodation the railway company furnished an extra baggage car.

The six Wabash engines, which were damaged by fire when the Toledo roundhouse burned, were brought to this city last night and are already undergoing repairs. The woodwork on two of the engines was burned completely off, but the locomotives were not so badly damaged as at first supposed.

Invitations to an Easter ball, to be given by A. G. Porter lodge No. 141, Brotherhood of Locomotive Firemen, have been issued. The ball will be the ninth given by this lodge and will, no doubt, prove as successful in a financial and social sense as were its predecessors. It will take place at Randall hall Monday evening, April 15.

Edward Polhamus, a nephew of Road Foreman A. H. Polhamus, was buried at Charlotte, Mich., this afternoon. The deceased leaves a wife and one child. He was an architect and for a number of years was thus engaged in Chicago. Last November, his health failing, he went to Pueblo, Col., expecting an improvement in his condition. Instead, he grew worse and died last Sunday. On account of sickness in his own family, Mr. Polhamus was unable to go to Charlotte to attend the funeral.

To prevent demoralization in passenger rates on eastern roads it is now proposed by the strong lines to enter into a combination with a view of forcing the weak lines and those roads which decline to go into an agreement into submission by breaking off all prorating agreements with all roads which refuse to join the pool or agree to maintain agreed rates.

Miss Frances McVey, sister of Night Yardmaster John McVey, of the Nickel Plate, is threatened with the loss of an eye. A few days ago the young lady was loosening the wire on a broom when the table fork, with which she was working, slipped and one of the prongs passed through the upper right eye lid and penetrated the ball. The attending surgeon has hopes of saving the sight.

The Columbus, Hocking Valley and Toledo Railroad company yesterday elected C. C. Waite, Calvary Morris, Jas. W. Ellsworth, Calvin S. Brice, P. W. Huntington, Jas. Kilbourne, Samuel D. Davis, C. B. Alexander and Thos. F. Ryan directors. Alexander, Davis and Ryan are of New York, Ellsworth, of Chicago and the others, except Brice, of Columbus. The old officers were re-elected.

In the Massachusetts senate yesterday, the committee on railways reported a bill providing that on and after January 1, 1896, no railroad shall use in moving traffic between points in that state any locomotive not equipped with a power driving wheel brake and appliances for operating the train brake system, or run any train which has not a sufficient number of cars so equipped with power as to enable the engineer to regulate it. On and after January 1, 1898, no cars shall be handled without being equipped with automatic couplers, which can be worked without going between the cars. The bill is suggested by the railroad commissioners.

Among the supreme court cases handed down last week at Columbus, O., was one involving a very important principle affecting the liability of railway corporations. The case was that of Caleb S. Hatch against the Lake Erie and Western road. The amount at issue was only $170, but the principle was of great importance. Hatch had $170 worth of household goods shipped to him. When the goods reached their destination the company notified him by post. He received the notice in the evening. That night the freight depot caught fire and the goods were consumed. The company argued that its liability ended when Hatch received notice of the arrival of the goods, and the common pleas court so held, but the circuit court reversed that decision and the supreme court affirmed the decision of the circuit court.

Will Close Their Convention This Evening.

George H. Daniels Delivers the Annual Address, Taking as His Subject a "Wheel Within a Wheel."

NEW YORK, March 20.—The American Association of General Passenger and Ticket Agents continued its session today at the Murray Hill hotel. The session was an open one and was graced by the presence of many women, most of whom were the wives and daughters of the agents. The feature of the meeting was the annual address delivered by George H. Daniels, of the New York Central. Mr. Daniels spoke on "A wheel in the middle of a wheel." It was a nineteenth century application of the version of Ezekiel to the transportation business of today. He said:

"The spirit of commerce is in the wheels of transportation that on land and sea are forever turning, distributing among all nations of the earth the products of our soil and the fruits of our industry and invention."

Turning to statistics, he said: "The United States has in round figures 177,400 miles of railroad, nearly one-half of the entire mileage around the globe. The passenger earnings of the railways of the United States for the year ending June 30, 1894, amounted to $424,507,000. A reduction of thirty two thousandth of a cent in the rate per mile, made a loss of $1,110,000 in the passenger revenue of these railroads last year."

The convention will close today, although it had been originally intended to last three days. The agents found that they could get through their work in two.

"MY FOOD DOES ME NO GOOD."

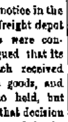

In any city there are many possible ways to travel from one point to another. But between the food on your table and its destination in the body, there is only one road, directly through the stomach. There is no going around the stomach or forcing a passage through it. Here the food is detained a while, for better or for worse. Here it must be digested—that is to say, changed, liquefied and converted for assimilation—or, failing that, it must lie here and rot, generating poisonous principles which enter the blood and set up a diseased action throughout the system. This is indigestion or dyspepsia—the condition that exists when a person says "My food does me no good."

Certainly not. How can it? The more he eats the more he suffers. The road is blocked. No use putting more grain in the hopper when the mill cannot grind. Here are some of Nature's protests: Loss of appetite; distress after eating; heartburn; palpitation; flashes of heat and cold, the rising of nauseous acids and gases to the throat; furred tongue; dull and aching head; pains in the chest and back; weariness, fatigue and worry; loss of sleep; cold hands and feet; yellowish eyes and skin; weakness and trembling; constipation; failure of nervous force and courage, etc., etc. Out of this seething blackpile in the stomach may come any of a dozen local complaints—a common form of pseudo-consumption among them. Yet you must eat or starve. Miserable dilemma.

Drastic measures won't do. Take a very little light nourishment at first and immediately after it a dose of the Shaker Digestive Cordial, the only radical effective remedy for indigestion or dyspepsia—prepared by the Shaker Community of Mt. Lebanon, N. Y. It will relieve at once and cure quickly. Made from cultivated medicinal herbs and plants grown by the Shakers. Pleasant to the taste, painless and harmless.

Trial bottles ten cents. For sale by nearly all druggists.

ABSOLUTELY PURE

Four days after it was issued the American government loan was at a premium of 5 per cent in the British market. England will like America very much in the next few years. The same day that the American loan was at a premium of 5 per cent in England the stock of the Canadian Pacific railroad went down to 45½. It fell over 4 per cent in one day because the road passed its February dividends without payment.

ASPHALT!

The Barber Asphalt Paving Company is now prepared to lay pavements in streets and alleys, with genuine Trinidad Pitch Lake Asphalt, at prices not exceeding the cost of the best grade of Brick Pavement.

Their class "B" Pavement for streets consist of four inches of concrete, one inch of binder consisting of broken stone and asphalt cement and one and one-half inches of asphalt wearing surface, making total thickness of pavement 6½ inches, for less than $2.55 per square yard; which is equal to $3.60 per lineal foot on each side of a 28 ft. street, and $4.15 per lineal foot on each side of a 32 ft. street. Grading, curbing and catch basins extra, and which will be necessary with any pavement.

For Alleys, three inches of stone foundation, filled with ten gallons of asphaltic cement to the cubic yard, and one inch of asphalt surface, after compression with heavy steam roller, at a price not exceeding $1.50 per square yard, which in a 14 ft. alley would not exceed $1.25 per lineal foot on each side, including grading and curbing.

All of which work is guaranteed by the company to be in perfect condition for the period of five years, without expense to the city or property owners.

The Barber Company now have a fine plant in this city, also superintendent located here, and any repairs needed on the pavement by reason of laying water or gas pipes, etc., can be done on short notice at cost.

This pavement is laid almost exclusively in the cities of Washington, Buffalo, Omaha and Kansas City, and in many smaller cities. There is scarcely a city in the Union that has not laid more or less of it; the company having plants and are doing work every year in seventy-five of the principal cities in the United States, as is evidenced by the work of last year, which amounts to over one million yards of pavement.

The Barber Company have come here to stay, and are going to lay the best pavement in the world at the lowest prices consistent with the high grade of work they do.

The company also lays pavements in cellars, breweries, private sidewalks and driveways. Parties wishing information on street, alley or private work, can obtain the same by application at the Company's office, rooms Nos. 7, 8 and 9 Vordermark's Block, or No. 3 Aveline House Block.

The Westminster church has received from Mrs. Henry Ward Beecher a picture of her husband, being a copper plate copy from the original painting by Connant, for which Mr. Beecher paid $5,000. The church was organized by Mr. Beecher. This picture, together with several other crayons, will be placed in the chapel at the celebration of the semi-centennial on April 27 and 28.

The entertainment, "Jargon," given at the Y. M. C. A. last evening was a decided success. The number on the program which gave to the affair its name was the rendition of "Rienzi's Address to the Romans," by six orators, who attempted to do the subject justice all at the same time and in their own style and conception. Mrs. Ormsby read the "Chariot Race" from "Ben Hur" in a very thrilling and interesting way. The musical numbers were unusually pleasing and delighted the large audience in attendance.

There will be a special meeting of the city council this evening for the purpose of modifying the contract recently entered into with the company which took the contract for cleaning out the city waterworks wells. This is rendered necessary by reason of the inability of the company to guarantee a permanent remedy to the defects now existing in the system of securing city water. The present improvements will likely last for four or five years and at the end of that time a new method of securing water will likely be adopted.

Rev. J. L. Leeper desires very much to obtain, as soon as possible, a picture of the Presbyterian church which stood on the corner of East Berry and Lafayette streets, and, also, a picture of the first court house. He wishes to get a copy of these pictures to be used at the celebration of the semi-centennial of Westminster church in April. The picture will only be used to photograph a copy and will be returned promptly and in good condition. Any person having such pictures will greatly oblige him by addressing him at 24 West Washington street.

A Curious Hotel Bill.

A curious hotel bill is published by the Gazette de Meran in Tyrol, Austria. It was made out in 1851 by the hotel keeper of the Lazing village to Prince Wilhelm of Prussia, who was afterward emperor of Germany: Lodging for the prince and five persons of his suit, 18 kreutzers; coffee, 10 kreutzers for each person; 3 kreutzers for a pot of milk; 1 kreutzer for 1 egg. The dinner at St. Leonhardt was moderate in price also: Soup and meat, 8 kreutzers; roast, 8; dessert, 10, wine, 5 kreutzers per head. The whole amount for breakfast and dinner, six persons, was 1 florin, 44 kreutzers. Prices have increased somewhat during the last 40 years.

LADIES OUTWITTED.

The Men's League of the Bethany Church Turn the Tables on Them.

The Men's league of the Bethany Presbyterian church held a social last night, which, although intended to be an exclusively men's affair, turned out, through the adroitness of the ladies, to be a pleasant commingling of both sexes and a most enjoyable evening's entertainment. The men had been discussing the immigration question, and after it was over they arranged their lunch, consisting of mush and milk and sandwiches. The sign of "No women need apply" was up, and, just as the men sat down to lunch, twenty of the ladies of the society of the church entered with fruits, candies, etc., and placed them on the tables, intending to act as waiters for the gentlemen. The latter, however, compelled the ladies to sit down to the tables first, and they waited on them. The tables were then re-arranged and the ladies served the gentlemen as they only know how to do.

MUNYON!

Makes a Bold Proposition to the Editor of the Fort Wayne Journal.

The Newspapers Will Investigate.

5,000 Vials of Munyon's Rheumatism Cure Will be Distributed

Free From the Office of the Journal.

Beginning Wednesday, 20th, at 9 O'Clock A. M., and Continue Three Days.

To the Editor of the Fort Wayne Journal:

Having discovered a positive and speedy cure for rheumatism, I address you in the hope that you will give publicity to my claim. I am well aware that in making the bold assertion that I have discovered a positive cure for rheumatism there will arise a strong doubt in the minds of the public as to the truth of this statement, and that a large majority of the people will class this discovery with the Koch lymph failure and the Brown-Sequard elixir-of-life delusion.

It is to overcome this prejudice that I invoke the aid of the Fort Wayne newspapers. I court the fullest investigation under your direct and personal supervision. I would suggest that the fairest and surest way to test the efficacy of this remedy would be for this company to send 5,000 trial bottles to the office of the Journal, there to be given out absolutely free to all persons afflicted with rheumatism; that the name and address of each person who accepts the remedy be entered in a book, and at the end of one week reporters be detailed to interview the parties who have taken the medicine, and that the results of each case be published in the papers. By this means there can be no deception or fraud, and the value of this remedy will stand or fall upon the testimony of those who have tried it.

Improbable as this statement may seem to you, or to those who have doctored for years with the most skillful physicians without benefit, yet I affirm, and am prepared to prove by over 10,000 people whom we have cured that this remedy will cure acute or muscular rheumatism in from one to five days. It never fails to cure sharp shooting pains in the arms, legs, sides, back or breast or soreness of any part of the body.

It is guaranteed to promptly cure lameness sciatica, lumbago, stiff and swollen joints, stiff back, and all pains in the hips and lions. It seldom fails to give relief after one or two doses, and almost invariably cures before one bottle has been used.

We do not claim that this remedy will cure rheumatism where the limbs are twisted out of shape, or where the disease is complicated by a scrofulous diathesis, but by a careful record we find that this remedy fails to cure in only about 5 per cent. of the cases in which it has been tried.

One of the strongest recommendations for this remedy is that it is absolutely harmless, and that a person can take the whole contents of a bottle without the slightest ill effect. Unlike the medicines used in ordinary practice for the cure of rheumatism, such as iodide of potash and salicylic acid which irritates the stomach and kidneys and disorganize the general system, without effecting a cure, this remedy acts as a strong tonic, and is invaluable in building up weak and debilitated people.

Believing that there is no cause so holy and inspiring, no vocation so lofty and ennobling, nothing so sure of man's gratitude and God's blessing as an honest effort to relieve suffering humanity, I beg to remain, yours truly,

JAMES M. MUNYON

The Journal accepts Professor Munyon's proposition and will begin the distribution promptly at 9 o'clock a. m., on Wednesday, the 20th. We desire that all persons afflicted with rheumatism will call and procure a trial bottle in order to give the remedy a fair test. The results will be published as proposed from day to day.
